
Windows XP Pro SP 2.iso

Windows XP Pro SP 2.iso Overview Windows XP is one of the most used operating system, both in home and corporate. Even though the features are very old, people still use this operating system to make use of its all features. Also many websites like newspapers, websites, blogs, and forums also make use of Windows XP and its features to help people. It is very important to get the Windows XP ISO file of your choice on your system to make use of its all services. In most of the cases users make use of Windows XP Service Pack 2 ISO file to make the installation process easier. Even today Microsoft still uses Windows XP Professional Edition for many of their products, like Outlook Express, Windows Messenger, and so on. This version is also known as Windows XP SP 2. The version refers to SP 2. Windows XP SP 2 features This is a main and important version of Windows XP, specially for business users. Here in this article we are going to explain the features of Windows XP Service Pack 2. Even if the version is old, there are plenty of people use it to make it their Operating System. Even you can read the entire article by visiting this link. Live Update It is the window that appears in front of you after booting your computer. You will be given an option to run the Live Update. For security reasons this version is available in languages. Microsoft sends Windows Update to all computers in the internet to check for any possible updates. Also, this option does not allow you to update your PC; It actually allows you to install the updates of Windows XP. One of the very good features in the Window XP SP 2 is the Live Update. Microsoft sends Windows Update to all computers in the internet to check for any possible updates. Also, this option does not allow you to update your PC; It actually allows you to install the updates of Windows XP. Disable Automatic Updates Windows XP will take very long time to start after every booting. It is basically a part of Windows XP. But there is a way to avoid this long-start-time of Windows XP every time the computer reboots. You can stop Windows XP from performing automatic updates. Here you will have to disable the Live Update. To disable the Live Update you have to follow the steps mentioned below. 1. Right click on the Windows icon in your desktop and select Properties. 2. Under System click on the Startup tab. 3. Now you
